Subject: Adjustment Eastmed & Black Sea coverage by new dedicated feeder service

Dear Valued Customer,

In cooperation with our G6 Alliance members we have decided to modify our network between the Far East and the Eastmed & Black Sea effective from week 36. The last sailing of the ABX service in its current format will be performed by our M/S MOL Performance (ETA Ningbo on 30th August).

Thereafter all port coverage will be maintained by a new dedicated feeder service with a connection via Port Said with our Loop 4 and Mediterranean service (EUM).

The rotation of the new dedicated feeder service will be:
Port Said – Ashdod - Istanbul - Constanza - Odessa - Istanbul - Ashdod - Port Said.

The weekly service will provide a seamless coverage of the Eastmed & Black Sea with two vessels of approx. 3,000 TEU.

As for our Ashdod customers our UAM service will continue to complement our service offering.

If you have any questions do not hesitate to contact your local sales office. Contact details can be found on our website www.molpower.com.

Yours faithfully,

MOL Management
